Our trade fair specials

ACHEMA

ACHEMA is known as the world forum for the process industry. Held every three years, this international trade show, conference and exhibition has its place in the various industries. With more than 110,000 square meters of exhibition space, it is home to the entire technology and service spectrum of the process industry. As the world's only comprehensive showcase of the latest technology trends in the industry, it offers hands-on technology and global networking. Manufacturers and service providers from over 50 countries are expected to attend, presenting products for chemistry, pharmaceuticals, biotechnology, energy and the environment, as well as visitors from more than 130 countries. However, AICHEMA is not only a platform for the latest technological developments, but also an important place for the exchange of knowledge and experience.

IFAT

IFAT is the leading trade fair for environmental technologies and waste management. It is not just a trade show, but a groundbreaking event that showcases the latest developments and innovations in the field of environmental protection and sustainability presented. Year by year the global community of experts, companies and decision-makers gather here to find solutions to the most pressing environmental problems of our time. At IFAT, you will have the opportunity to experience the future of environmental technology up close.

From state-of-the-art wastewater treatment plants to intelligent recycling solutions to innovative approaches to climate protection - this trade show is the platform for pioneering ideas and groundbreaking technologies. Learn the leading companies the industry, exchange ideas with experts, and discover how innovations are driving the environmental industry forward. IFAT is more than just a trade fair - it is a meeting place for visionaries who want to shape a sustainable future.

Michael Brosig

Company spokesperson

JUMO, Fulda

JUMO is not the only company celebrating a major anniversary this year (75 years). Fachwelt Verlag also has a good reason to pop the champagne corks. Ten years ago, entrepreneur and publisher Alija Palevic broke new ground: With fresh layout ideas and an attractive content concept, he quickly became a force to be reckoned with in the trade magazine market. This "spirit of innovation" has always driven Fachwelt-Verlag forward.

Mettler-Toledo product inspection

Congratulations on your tenth anniversary. Over the past ten years, you have managed to establish yourself as one of the most important sources of information for process engineers in the chemical, pharmaceutical and food industries, continuously delivering high-quality content.

Your individual E-mag special edition

Take advantage of our digital media expertise and implement your corporate publishing products with us as e-mag. The advantages are obvious on the tablet, notebook and smartphone:

The **e-mag** is the **economical alternative** to the print product, because you save both printing and shipping costs. In return, you benefit from the intelligent networking of your contributions, a **high reach** in the network and **high response rates**.

We will be happy to advise and assist you in the implementation - from conception to editing and screen-design to programming and publication.

Lead generation

You need to successfully spread your budget and position yourself properly. This raises the following questions:

- ❓ What do I want/need to achieve?
- ❓ Which media should be used?
- ❓ How do I allocate the advertising budget?
- ❓ How do you measure the success of a campaign?
- ❓ Which numbers are relevant?
- ❓ How do I reach my target group?

- ✓ **Destination** Leads with complete contact details
- ✓ **Schedule** Date start/end
- ✓ **Range** Individual, depending on selection
- ✓ **Selection** Target group by country, region, city
- ✓ **Interests** Industries and activity
- ✓ **Duration** Specification in days

We guarantee and promise the delivery of actual leads. The selected target group is interested in your products.
