MEGASCOPE is my take on the expressive Deco-inspired Geometric Sans Serifs of the 1970s. This style graced many a sci-fi book and album cover in its day, some of which I recently had the opportunity to sift through thanks to a recent moving sale held at a local used bookstore. The typeface is characterized by little circles in letters like **B**, **P**, and **R** that combine geometric roundness and exaggerated proportions. It also features tight spacing, a consistent diagonal stroke angle, and a variable axis that enlarges the circular forms.
