Bringing joy to the garden

Over 600 high-quality
wooden products by Palmako

ENG Palmako AS is the leading manufacturer of garden and log houses, glue-laminated products and wood pellets. Our products are well known for their quality as we use the best raw material available: durable and beautiful Nordic spruce. 25 years of experience in wood industry has made us one of the leading companies in this area in Europe today. We hope you enjoy garden products manufactured by Palmako!

GER Palmako AS ist der führende Hersteller von Gartenhäusern, Leimholzprodukten und Holzpellets in Estland. Unsere Produkte sind bekannt für Ihre hohe Qualität, die vor allem durch Verwendung von erstklassigem nordischem Fichtenholz erreicht wird. Dank 25 Jahren Erfahrung in der Holzindustrie ist Palmako heute einer der führenden Hersteller von Garten- und Ferienhäusern in Europa. Wir wünschen Ihnen viel Freude an den Palmako Gartenprodukten!

FRA Palmako AS est le leader dans la fabrication d'abris et de chalets de jardin, de produits en bois lamellé et de granulés en bois. Nos produits sont reconnus pour leur qualité supérieure puisque nous utilisons la meilleure matière première disponible : l'épicéa Nordique qui est un bois naturellement beau et durable. 25 années d'expérience dans l'industrie des abris et chalets en bois ont fait de nous l'un des acteurs majeurs en Europe. Nous espérons que vous profiterez des produits de jardin fabriqués par Palmako !

ESP Palmako AS es el líder de la fabricación de vigas laminadas y casetas de troncos para jardín de Estonia. Nuestros productos son muy conocidos por su calidad, porque usamos la mejor materia prima disponible: el bello y duradero abeto nórdico. 25 años de experiencia en la fabricación de cabañas de madera nos ha hecho una de las empresas líder del sector en la Europa de hoy. Esperamos disfrute de las casas de madera fabricadas por Palmako.

ITA AS Palmako è il principale produttore di case da giardino e in tronchi, prodotti in legno lamellare e pellet di legno. I nostri prodotti sono ben noti per la loro qualità e per il fatto di utilizzare le migliori materie prime disponibili: abete nordico pregiato e resistente. 25 anni di esperienza nell'industria del legno ci hanno reso una delle aziende attualmente leader in questo settore in Europa. Speriamo possiate apprezzare i prodotti Palmako dedicati al giardino! Ci auguriamo che i prodotti per il giardino di Palmako stimolino il vostro interesse!

ENG We are proud to announce that some of our swings, playgrounds and all the playhouses are certified by TÜV Rheinland. It is an additional safety and high quality guarantee to the customer, that the product itself as well as its manufacturing process are tested and supervised by an independent certifying body.

GER Wir sind stolz, dass einige von unseren Schaukeln, Spielanlagen und alle Spielhäuser vom TÜV Rheinland zertifiziert sind. Das TÜV-Zertifikat ist ein Nachweis über die Sicherheit und hohe Qualität unserer Produkte. Das Produkt selbst und der Produktionsprozess wurden von unabhängigen Dritten überprüft und bestätigt.

FRA Nous sommes fiers de vous annoncer que certains de nos balançoires, aires de jeu et maisonnettes sont certifiés TÜV Rheinland. C'est un gage de qualité et de sécurité pour nos clients. Cet organisme indépendant teste, surveille, et atteste le processus de fabrication et garantit que les produits répondent à de hautes normes de sécurité et de qualité.

ESP Tenemos el orgullo de anunciar que varios de nuestros columpios, parques infantiles y casitas infantiles tienen ahora certificación de TÜV Rheinland. Para el consumidor es una garantía adicional de seguridad y alta calidad que el producto mismo, así como su proceso de fabricación, sean probados y certificados por una autoridad certificadora independiente.

ITA Siamo lieti di comunicarvi che alcune delle nostre altalene, giochi e casette da bambino sono certificati da TÜV Rheinland. Il fatto che il prodotto e il relativo processo produttivo siano stati controllati e abbiano ottenuto il benessere da un organismo indipendente di certificazione fornisce una ulteriore garanzia di sicurezza ed elevata qualità per i nostri clienti.

ENG TREATMENT AS ADDITIONAL PROTECTION FOR WOODEN PRODUCTS

Production lines and machines allow us to flexibly arrange procedures and to produce a very wide product range from square log houses with different log thicknesses to the element, prefabricated and large weekend log houses. As we have our own treatment baths for brown, grey and clear white dip treatment, cabins and other larger sized items can be ordered treated with Axil 3000 P by the Sarpap & Cecil Industries water-soluble treatment liquid, guaranteeing treatment within classes 1-3. The brown and grey dipping treatment can enhance the colour of your house, but the clear white dipping works for the pre-paint preparation stage. Smaller sized items like furniture can be pressure-treated in the vacuum-pressure-vacuum method giving these items a green or brown shade. We have invested into modern painting technology that enables us to paint smaller sized garden products like fence panels and posts.

Ask for more information about the treatment of specific product!

Please get familiar with the article number and description of the treatment we offer as follows:

GER BEHANDLUNG ALS ZUSÄTZLICHER SCHUTZ FÜR HOLZPRODUKTE

Dank modernster Produktionsanlagen sind wir in der Lage, ein breites Sortiment an Holz-im-Garten Produkten zu produzieren – hierzu gehören Blockbohlenhäuser in verschiedenen Wandstärken, Elementhäuser zum bauseitigen Isolieren sowie geräumige Ferienhäuser. Sowohl Häuser als auch andere größere Produkte können bereits ab Werk mit einer Tauchgrundierung versehen bestellt werden. Die Behandlung erfolgt mit der wasserlöslichen Behandlungsflüssigkeit Axil 3000 P von Sarpap & Cecil Industries (Gebrauchsklassen 1-3). Abhängig davon, welche Farbe das Produkt am Ende erhalten soll, haben Sie die Wahl zwischen brauner, grauer oder transparenter Tauchgrundierung. Eine farbliche Endbehandlung ist zeitnah nach dem Aufbau erforderlich.

Gartenmöbel können im Kesseldruck-Vakuum-Verfahren behandelt werden und erhalten hierbei eine grüne oder braune Oberfläche.

Zudem bieten wir Produkte wie Zaunelemente und Pfosten mit weiß oder grau lackierten Oberflächen an.

Für weitere Informationen zur Produktbehandlung wenden Sie sich bitte an unser Verkaufsteam. Nachfolgend sind die Behandlungsoptionen mit entsprechenden Artikelnummern aufgeführt. Die jeweils erhältliche Behandlung finden Sie bei den Produkten.

FRA LE TRAITEMENT, UN AVANTAGE DANS LA PROTECTION DE VOTRE BOIS

Nos lignes de production et nos machines nous permettent d'organiser des procédures de manière flexible et de produire une très large gamme de produits allant des abris en madriers (avec différentes épaisseurs) aux chalets de loisirs en éléments préfabriqués, en passant par d'autres produits d'aménagement pour votre jardin tels que le mobilier de jardin ou les éléments de clôture.

Les abris et les articles de grande taille peuvent être commandés traités avec le liquide de traitement hydrosoluble Axil 3000 P de Sarpap & Cecil industries, garantissant un traitement dans les classes 1-3. Ils sont disponibles en trois coloris : marron, gris vintage et blanc translucide. Le traitement par trempage marron et gris vieilli apporte en plus de la protection une couleur originale, en revanche le trempage en blanc translucide correspond à un apprêt nécessaire avant l'application d'une peinture. Les articles de petite taille comme le mobilier de jardin peuvent être traités en autoclave. Ce traitement donne aux produits une teinte verdâtre ou brunâtre. Grâce à notre investissement dans une technologie moderne de peinture, nous avons la possibilité de peindre certains de nos produits les plus petits en blanc, comme les panneaux de clôture et les poteaux.

Demandez plus d'informations sur le traitement des produits spécifiques !

Veuillez, s'il vous plaît, noter le numéro d'article et la description du traitement que nous offrons comme indiqué ci-dessous :

ESP TRATAMIENTO COMO PROTECCIÓN ADICIONAL PARA PRODUCTOS DE MADERA.

Las líneas de producción y las máquinas nos dan flexibilidad para organizar los procedimientos y fabricar una amplia variedad de productos, desde casas de lamas de madera de diferentes grosores, hasta casetas de elementos prefabricadas y grandes casas de fin de semana. Tenemos nuestros propios baños de tratamiento en marrón, gris y blanco claro, por lo que se pueden pedir cabañas y otros productos de gran tamaño ya tratados con Axil 3000 P líquido soluble en agua de Sarpap & Cecil Industries que garantiza tratamiento de clase 1-3. Los tratamientos marrón y gris pueden realzar el color de su casa, en cambio, el blanco claro es una preparación para antes de pintar. Los artículos de menor tamaño, como paneles de ocultación, postes y muebles, pueden ser tratados a presión con el método autoclave, dándoles un tono verde o marrón. Hemos invertido en una tecnología de pintado moderna que nos permite pintar productos de jardín de menor tamaño, como paneles de ocultación y postes.

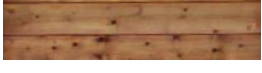

No dude en pedir más información sobre el tratamiento de un producto.

Por favor, vea el producto y la descripción del tratamiento ofrecido de la siguiente manera:

ITA TRATTAMENTO COME PROTEZIONE AGGIUNTIVA PER PRODOTTI IN LEGNO

I nostri macchinari e linee produttive ci permettono di organizzarci in modo flessibile e di realizzare una gamma di prodotti molto ampia, dalle cassette in tronchi quadrati in vari spessori, alle case prefabbricate di maggiori dimensioni ad elementi in tronchi, per il fine settimana. Grazie ai nostri bagni di trattamento a tuffo marrone, grigio e bianco chiaro, le cabine e altri elementi di maggiori dimensioni possono essere ordinati trattati con Axil 3000 P con liquido solubile in acqua Sarpap & Cecil Industries, garantendo un trattamento all'interno delle classi 1-3. Il trattamento marrone dona alla casa una migliore tonalità finale, mentre il trattamento a tuffo chiaro bianco fornisce un'ottima base per la fase di preparazione della pre-verniciatura. Gli elementi con dimensioni più piccole, come i mobili, possono essere trattati sotto pressione con il metodo vuoto-pressione-vuoto, che dona a questi elementi una tonalità verde o marrone. Abbiamo effettuato investimenti in moderni sistemi di verniciatura, che ci permettono di rivestire elementi di piccole dimensioni per il giardino, come pannelli di recinzione e pali. Richiedete maggiori informazioni sul trattamento disponibile per lo specifico prodotto!
