The **ACM Special Interest Group on Computer-Human Interaction** (SIGCHI)'s scope consists of the study of the human-computer interaction process and includes research and development efforts leading to the design and evaluation of user interfaces. SIGCHI serves as a forum for the exchange of ideas among computer scientists, software engineers, psychologists, interaction designers, graphic designers, sociologists, and anthropologists. SIGCHI sponsors the annual CHI conference, co-sponsors additional conferences and workshops, and offers its members the "Member Plus" package. *Interactions* magazine and the *CHI Bulletin* newsletter are included with SIGCHI membership.

The **Association for Computing Machinery** (ACM) is an educational and scientific computing society which works to advance computing as a science and a profession. Benefits include subscriptions to *Communications of the ACM*, *MemberNet*, *TechNews* and *CareerNews*, full and unlimited access to online courses and books, discounts on conferences and the option to subscribe to the ACM Digital Library.
