SIGSOFT & ACM

The **ACM Special Interest Group on Software Engineering** (SIGSOFT) seeks to improve our ability to engineer software by stimulating interaction among practitioners, researchers, and educators; by fostering the professional development of software engineers; and by representing software engineers to professional, legal, and political entities. SIGSOFT sponsors two major conferences each year, the International Conference on Software Engineering (co-sponsored with IEEE) and Foundations of Software Engineering, as well as specialized conferences on topics such as testing and maintenance. SIGSOFT publishes a quarterly online newsletter, *Software Engineering Notes*.

The **Association for Computing Machinery** (ACM) is an educational and scientific computing society which works to advance computing as a science and a profession. Benefits include subscriptions to *Communications of the ACM*, *MemberNet*, *TechNews* and *CareerNews*, full and unlimited access to online courses and books, discounts on conferences and the option to subscribe to the ACM Digital Library.
