

# SPLA Product and Price List Updates

## Windows Server 2025

Windows Server 2025, the latest Long-Term Servicing Channel (LTSC) release, introduces advanced security, new Azure hybrid features, a high-performance platform for your existing apps and AI workloads, and a modernized Windows Server experience.

Some key improvements in Windows Server 2025 include:

- **Advanced security and resiliency:** Hardware and software-level security to deter cyberattacks; modernized identity management, new safeguards against brute force and lateral attacks, and more uptime through easier security updates.
- **Cloud agility anywhere:** Adapt quickly across hybrid, cloud and edge. Easier to connect to Azure Arc to bridge on-premises and cloud-based servers and deliver Azure capabilities to your on-premises servers.
- **High-performance, AI-ready infrastructure:** Windows Server 2025 lights up new possibilities with compute, performance, and storage enhancements. New GPU partitioning across VMs with live migration and failover clustering built to support AI workloads. Reduce time spent on network setup, upgrades, and management tasks.

Windows Server 2025 will have new prices across all commercial channels, including SPLA.

## System Center 2025

We're also excited to announce the launch of [System Center 2025](#), a leap forward in infrastructure management, enabling you to make the most of the Windows Server 2025

features from “day 0”. Advanced security continues to be a theme for System Center 2025 as well, featuring Azure Key Vault integration and reduced NTLM and Credential Security Support Provider protocol (CredSSP) usage. For hybrid innovation, onboarding machines in your System Center Virtual Machine Manager (SCVMM) managed datacenters to Azure Arc is simplified with [Azure Arc-enabled SCVMM](#). In addition to at-scale Arc onboarding, it also enables you to manage the lifecycle of the machines in your datacenter in a self-service fashion from Azure.

System Center 2025 will have new prices across all commercial channels, including SPLA.

## Office LTSC 2024

Like earlier perpetual versions of Office, Office LTSC 2024 will include only a subset of the value found in Microsoft 365 Apps, building on the features included in past releases. New features for Office LTSC 2024 include: **new meeting creation options and search enhancements in Outlook**, dozens of **new Excel features and functions including Dynamic Charts and Arrays**; and improved **performance, security, and accessibility**. Office LTSC 2024 will not ship with Microsoft Publisher, [which is being retired](#), or with the Microsoft Teams app, which is available to [download separately](#).

Office LTSC 2024 will have new prices across all commercial channels, including SPLA.
