

Mobile Workforce Solutions that Enable Performance

As your workforce begins to return to the road and sky, are they prepared for today's connectivity challenges?

Minimize mobile workforce support

Providing users with the right products ensures they can work on the go while minimizing support requests.

Key areas for enabling productivity on the go:

1 Connected

Make sure your employees are carrying the right multiport adapter to easily enable work in boardrooms, hotel rooms, temporary workspaces, and everywhere in between.

Ranging from 2-in-1 to 8-in-1 models, for single and dual displays, with Windows, Chrome OS, or macOS.

Built-in cables at short and longer lengths for extended reach when used with 2-in-1's or laptops on a riser stand.

Some offer cable wraparound for tangle free storage in a laptop bag.

IT PRO TIP

Multiport adapters with DP Alt Mode deliver uncompressed video and are ready out of the box with no software or added drivers to install.

2 Powered

It's crucial, especially when your users are on the go, to have the right charger and the right cable on hand to keep laptops, tablets, and smartphones powered and productivity enabled.

IT PRO TIP

Even if travelling with the laptop's included power adapter, having a backup wall charger can ensure flexibility.

50% Lighter

Our USB-C laptop charger is lightweight (5 oz), half of most OEM chargers, making it ideal for travel

180° TPE jacket

Our coiled cables have a strong but soft flexible TPE jacket, making it easy to coil and handle the rigors of travel

3 Organized & Protected

A well-designed bag protects and organizes a laptop and essential mobile accessories like cables or a laptop privacy screen filter. Large files can be carried without compromising performance, using a high-speed NVMe drive enclosure.

M.2 Enclosures **up to 2X 10Gbps**

nearly twice the capability of traditional M.2 SATA and hard drive enclosures

IT PRO TIP

Enclosures with support for NVMe (PCIe-based) drives can take full advantage of throughput available to USB 3.2 Gen 2.

Ensure your team can be productive on the go, with StarTech.com connectivity accessories that are reliable and simple to use.
